Reliable security solutions that protect every facet of your business or organization

Pinkerton helps you develop clear strategies and effective programs designed to protect every important element of your business: employees, customers, supply chain, products, and facilities.

Special Event Services

As more and more companies put on large-scale, complex events in diverse locations around the globe, Pinkerton is called upon to provide reliable security and protection. Though the task of ensuring safety can seem daunting, Pinkerton is well-equipped to meet all logistical challenges. We've been called upon to help assist with events as complex as the Academy Awards and large national and international sporting events.

- Provide situational analysis to identify and coordinate countless security factors
- Gain access to local resources when possible to increase effectiveness and efficiency
- Prepare contingency plans to help ensure there are no surprises

Supply Chain & C-TPAT Security Services

Pinkerton provides the most comprehensive global supply chain risk management services available. As more companies continue to off-shore their manufacturing, design, research/development facilities and suppliers, we help them navigate the wide variety of language, business practices, cultures, and customs that all play a role in assessing and managing supply chain risks. Pinkerton can also combine multiple government and private organization supply chain security programs into a single, comprehensive program.

- Customs-Trade Partnership Against Terrorism (C-TPAT) Consulting
- World Customs Organization (AEO)
- ISO 28000:2007 (Security management systems for the supply chain)
- Maritime port security compliance
- Cargo theft & transportation security

Risk Consulting

We provide comprehensive security risk management and consulting for Fortune 1000 companies around the world. Pinkerton goes beyond the typical consultancy that is based on pre-established "best practices" for certain industries. We also incorporate practical, real world, and on-the-ground experiences sourced from our global network of resources (The Pinkerton Vigilance™ Network) to provide reliable security threat management for a diverse group of industries.

- Accounting firms
- Payroll companies
- Alarm system firms
- Financial services
- Retailers

Risk Assessments

Pinkerton provides reliable risk evaluations and security consulting that help protect your assets at one location or for hundreds of sites around the world. International clients rely on Pinkerton for comprehensive security risk assessments. Our global network of offices and resources allows us to fully analyze and evaluate situations no matter where they may be located.

- Detailed review of employee safety and security processes
- Compliance audit against security mandates required by your industry
- Evaluate the use of electronic security systems
- Analyze the use of security personnel at client locations
- Create and provide a Vulnerability Findings Report

Workplace Compliance

Pinkerton offers industry expertise, web-based reporting capabilities and a global network of resources to deliver reliable security compliance management locally and throughout the world. Our highly-trained, licensed investigators have keen industry experience in compliance audit and management. We alert corporations of critical issues and assist clients in revising procedures to help ensure the safety and security of employees and customers.

- PDMA Audits help ensure compliance with all state, local, corporate, and industry policies
- Safety and Security Audits uncover violations of safety, fire code, lighting, and building access
- Automated Web-based reporting program provides flexibility for reports and analyses

Enterprise Risk Management

Our Enterprise Risk Management solutions help reduce clients' exposure to risk and vulnerability. Pinkerton partners with customers, providing a dedicated management approach focused on helping protect the enterprise concerns of our clients. We often interact with local managers on a daily basis and senior management on a quarterly or semi-annual basis.

- Global operations management and coordination
- Technology management
- Finance and contract governance
- HR and labor relations
- Dedicated training group

Security Design

From simple surveillance to comprehensive protection designed to combat bomb blasts or chemical/biological attacks, Pinkerton has a full range of risk management solutions to meet your needs. Our meticulous approach to the security design process can be incorporated at any stage of your facilities' design/construction process.

- Complex and floor layout
- Security ancillaries
- Access controls & CCTV operations
- Tactical positioning of security guards
- Security Policy & Standard Operating Procedures
- Command & Control Centre (C-Cube) layout
